

LOGX 19 INCH METAL CABLE MANAGER

1U Metal Cable Manager, 24 Slot

LOGX 1U 24 & 2U 48 METAL CABLE MANAGER (19 INCH)

PART NUMBER

LXCPCMMN1

DESCRIPTION

LOGX 19-Inch Metal Cable Managers provide neat, structured, and organized routing for copper and fiber optic patch cords inside server racks and telecommunications cabinets. Manufactured from premium 1.2mm SPCC cold-rolled steel with a snap-on metal cover to conceal cables and maintain proper bend radius.

FEATURES & BENEFITS

- 19-Inch EIA Standard Rack Mount in 1U and 2U configurations
- Solid 1.2mm Cold-Rolled Steel construction with anti-corrosion black finish
- Dual-Hinged Snap-On Cover for quick patch cord access and clean rack aesthetics
- Generous Cable Capacity with rounded pass-through slots to protect cable jackets
- Eliminates cable strain and maintains optimal airflow inside server cabinets
- Includes complete set of M6 cage nuts, screws, and washers

TYPICAL APPLICATIONS

- Data Centers, Server Rooms, and Telecom Closets
- 19-Inch Free-Standing Server Racks & Wall-Mounted Cabinets
- Patch Cord Organization between Patch Panels and Network Switches

COMPLIANCE & STANDARDS

- ✓ EIA/ECA-310-E Standard 19" Mounting
- ✓ IEC 60297-1 / DIN 41494
- ✓ RoHS & REACH Compliant

SPECIFICATIONS & TECHNICAL PARAMETERS

Product Standard	LOGX 19" Metal Cable Management Panel	Standard Width	19-Inch Rack Mount (EIA-310-D)
Height Options	1U (24 Ring Slot) / 2U (48 Ring Slot)	Material	High-Grade Cold Rolled Steel (SPCC 1.2mm)
Surface Finish	Electrostatic Black Powder Coating	Cable Management	Open-Duct D-Rings / Slotted Fingers
Front Cover	Removable Snap-On Hinged Metal Cover	Accessories	Mounting Cage Nuts & Screws (M6) Included

MECHANICAL CHARACTERISTICS

Material Thickness	1.2 mm Cold Rolled Steel
Coating	Anti-Rust Degreasing, Phosphating & Powder Coat
Cover Mechanism	Snap-On Dual-Hinged Metal Cover

APPLICATIONS & COMPATIBILITY

Rack Standards	19-Inch Server Racks, Wall Cabinets & Frames
Cable Capacity	Up to 48 CAT6 / CAT6A / Fiber Patch Cords per 1U
Bend Protection	Smooth Edges to Prevent Cable Snagging
